About the Book

Emily Benton has spent her entire life immersed in politics. Having been raised in the industry, she has the kinds of contacts that it takes most politicians decades to build. She knows that she can win the race for president of the United States, but only if she destroys her rival first, before he can find and use hidden ammunition on her. If Emily destroys him, the election will be hers. A groundbreaking novel about the intersection of politics, power, personality, and the future of our country.

Author Bio

Born and raised in Birmingham, Alabama, Laura Hayden began her reading career at the age of four. By the time she was ten, she'd exhausted the children's section in the local library and switched to adult mysteries. Although she always loved to write, she became sidetracked in college where differential equations outweighed dangling participles. But one engineering degree, one wedding, two kids, and three military assignments later, she ended up in Colorado Springs, Colorado, where she met people who shared her passion for writing. With their support, instruction, and camaraderie, she set and met her goal of selling her first book. She has now published ten novels and several short stories.
